EXPERIENCE

Odisha Hydro Power Corporation (OHPC), Bhubaneswar Internship

Duration: January 2023 - February 2023

Comprehensive Analysis: I conducted a thorough examination of OHPC's cash flow and fund flow statements, identifying patterns, trends, and potential areas for optimization. This involved meticulous data collection, organization, and interpretation, enabling me to gain a holistic understanding of the company's financial health.

Financial Modeling: Leveraging my quantitative skills, I developed financial models to

forecast OHPC's cash flows under various scenarios. These models served as valuable tools for decision-making, providing insights into future cash requirements, investment opportunities, and risk mitigation strategies.
