4. Respecting individual and cultural differences
5. Report writing
6. Proficiency in using SPSS, MS-Office, Epic
7. Conducting Focus Group Discussions
8. Event organization and management
9. Preparing and delivering presentations
10. Reviewing literature
11. Mentoring and training

DISSERTATION

Topic- “Leisure, Recreational and Physical Activities Among the Elderly in Bangalore”

*[I conducted a **mixed-methods study on 295 elderly** (60 years or above), using a **semi-structured questionnaire and Physical Activity Scale for the Elderly (PASE)** instrument via a mobile-based **Epi Info** questionnaire. A set of 11 activities were identified. The study found that majority of the participants were engaged in sitting activities indicating a lack of variety in the activities performed by the elderly. Health problems emerged as the main challenge/ reason for non-participation or not engaging in the activities. Socio-economic and educational status, and gender were found to be significantly associated with many activities.]*

-Learnt to **conceptualize and conduct research.**

ARTICLE PUBLISHED

- “Assessment of Health Impacting Behaviors among Youth in Rural Karnataka”.
