Reading books on personal development, leadership, and entrepreneurship to enhance my skills and knowledge. Sports or fitness activities Leadership roles in student organizations or events Volunteer work

Projects

- **Food plaza** : Designed and developed a responsive food delivery website using frontend (HTML, CSS, JavaScript) and backend (python, Django, sqlite3) and extra theme for app available in template test folder (used online bootstrap). Implemented a user-friendly interface that allowed users to browse menus, place orders, and track delivery status.
- **Portfolio Website** : Designed and developed a responsive portfolio website using HTML, CSS, and JavaScript. Implemented a clean and modern design with smooth animations and interactive features.
- **Payment gateway** : Design and developed a payment gateway website using HTML, CSS, and JavaScript. Payment gateway is a technology platform that acts as an intermediary in electronic financial transactions. It enables in-person and online businesses to accept, process, and manage various payment methods-such as credit cards, debit cards, and digital wallets-in a secure and efficient manner.

Internship

The Spark foundation (Web development intern) : made a donation website using HTML, CSS, embedded through Google map and Razor pay payment website. Hosted this website on AWS Azure S3.
