EXPERIENCE

WATERFLAMES INSTITUTE,BHUBANESHWAR

Social Microblogging:

Undergone 6 weeks training in Php language .

Summary:The project was to develop social media website with the upcoming features of both facebook as well as twitter.

This website is developed keeping in mind the upcoming social media addiction .

- This website has both the features of facebook posts and chat option along with tweet option.
- This project also involves chat bots with voice.
- June 2014-July 2014

LAKSHYA INSTITUTE,BHUBANESHWAR

SHOPPING WEBSITE

- The purpose of this website is to create a website for shopping using Angular js.
- The project contains admin and the sub models
- 2015
- 6 weeks

INCUBATION

- The purpose of the project is to allow the incubators to keep a track of the progress of the Project. Summary: As we know the projects of the incubators or the researchers need to be updated digitally ,hence this website is being worked upon to show case how we can keep a track on the ongoing projects
- We can also see the percentile completion of the project.
- In this project we can upload the documents related to the projects and both the guide and the researchers can see the project graph.
- Here we have two modules
 - A
dmin
 - R
esearcher ADMIN
- In the admin module we can do the add update and delete operation of the login data and also the project details.
- Here the admin is able to see the login details of the whole website.
- The admin can set the calendar date and also the happenings on the website.

Researcher

- The researcher needs to register for the passage into the website.
- In the researcher module the researcher can upload the document files regarding the research and also can keep a track on the leads given by the team members.
- The chat bot enabled in the researcher module helps to chat among the team members.
